

# Future Generation Trust

## CASE STUDY

Transformation with. Microsoft Modern Workplace

### OVERVIEW

**Client:** Future Generation Trust (5 Schools)  
**Industry:** Education  
**Focus:** Innovative and transformative educational experiences

### THE CHALLENGE

Future Generation Trust was at a critical juncture, seeking to revolutionise its educational infrastructure across multiple locations.

The trust aimed to enhance collaboration, manageability, and security while ensuring its IT infrastructure could support an innovative and dynamic learning environment.

### THE SOLUTION

Techn22 partnered with Future Generation Trust to implement a comprehensive IT overhaul utilizing Microsoft Modern Workplace solutions. The project included:

- Unified Domain Structure:** Transitioning to a single Microsoft 365 Tenant, enhancing collaboration and manageability across all educational facilities.
- Enhanced Accessibility:** Providing seamless access to SharePoint, enabling faculty and students to access their desktop setups and documents from any school location.
- Robust Data Backup:** Implementing advanced backup solutions to protect the vast data within the M365 Tenant.
- Advanced Device & Policy Management:** Utilising Intune and Azure Active Directory, along with Microsoft Defender for Business, to streamline device management and bolster security.
- Sharepoint & One Drive:** Using these platforms for efficient file storage and access, promoting a collaborative and mobile-friendly environment.
- Strategic Infrastructure:** Establishing new Virtual Machines and a fresh domain to ensure smooth, efficient operations and system stability.
- Comprehensive Migration & Synchronisation:** Employing tools like ADMT for migration, ensuring all Microsoft 365 content, including email and OneDrive, was perfectly synchronised.
- Email Protection & Security:** Implementing Barracuda TEP for top-tier email filtering, security, and backup.

# Future Generation Trust

## CASE STUDY

Transformation with. Microsoft Modern Workplace

### IMPLEMENTAION

Techn22's team worked closely with Future Generation Trust to ensure a seamless transition, providing on-site support and configuration, and preparing the educational staff for the new system.

The migration and integration process was meticulously planned to minimise disruption and maximise efficiency.

### THE OUTCOME

As a trusted IT partner, Techn22 demonstrated its commitment to delivering customised, efficient, and secure IT solutions, reinforcing its position as a leader in IT support services.

**Revolutionised Learning Environment:**

The Trust now enjoys a state-of-the-art IT infrastructure, fostering an environment where students and educators can excel.

**Enhanced Security & Compliance:**

With advanced security measures in place, the trust is assured of the safety and privacy of its data and communications.

**Seamless Collaboration:**

Unified domain and SharePoint integration allow for unprecedented levels of collaboration among students and faculty, across all it's sites.

**Continuous Support:**

Techn22's commitment to ongoing support ensures the Future Generation Trust is always at the forefront of IT advancements.

The partnership between Techn22 and Future Generation Trust has set a new standard for educational excellence.

By harnessing the capabilities of Microsoft Modern Workplace, the trust has not only addressed its immediate needs but also laid a foundation for continual innovation and growth.

This transformation goes beyond technology; it's about creating a future where education is boundless, secure, and collaborative.

With this new infrastructure, Future Generation Trust is poised to lead the charge in redefining educational possibilities for generations to come.
